

EASYLyO

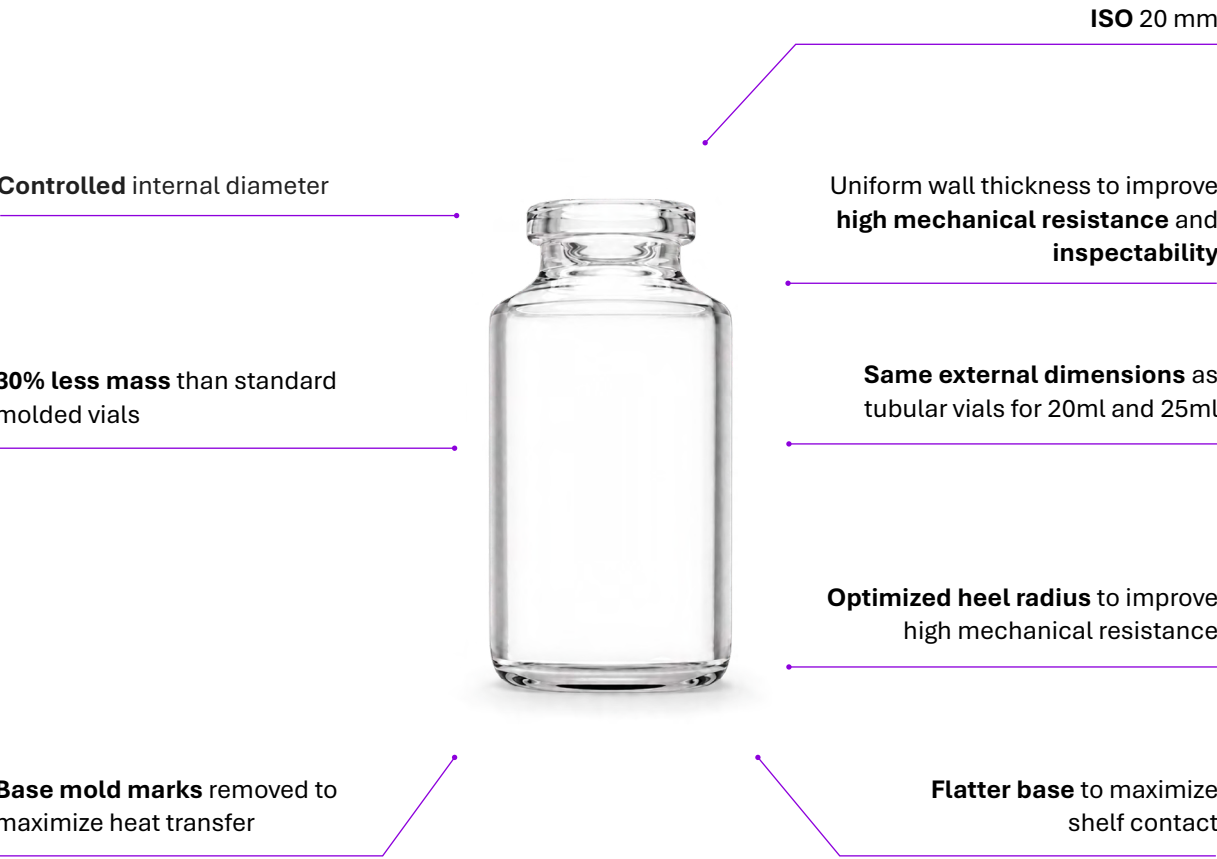

**SIMPLY
STRONGER VIALS**

Injectable vials in molded glass

EasyLyo is a complete range of molded glass vials designed for lyophilization. Easylyo vials are 30% lighter than standard molded glass vials but have the same mechanical resistance and an enhanced cosmetic appearance. They are suitable for both liquid and lyophilized drugs.

Innovative design

-  **Optimized base design to enhance heat transfer**
The EasyLyo range is designed to improve heat transfer during freeze-drying, featuring a flat, stippling-free bottom and optimized radius.
-  **High mechanical resistance**
EasyLyo vials have a uniform wall thickness that offers reinforced physical resistance.
-  **Better inspectability**
EasyLyo vials offer improved cosmetic quality and uniform glass thickness thanks to SGD Pharma's technology.

Did you know that?

- EasyLyo provides stronger packaging that is more resistant and suitable to extreme conditions encountered during the lyophilization process.
- Easylyo is a range of Type I glass vials combining the strength of molded glass with superior cosmetic quality and weight reduction.
-  **Same composition** as regular Type I glass
-  **Same production plant** (Kipfenberg, Germany)
-  **Same ISO dimensions** as regular Type I glass
-  **No regulatory change** in Type I glass

Wide range of sizes

EASYLYO	NECK TYPE	CAPACITY (ML)	CLEAR GLASS	AMBER GLASS
	ISO 20	5, 10, 20, 25, 30, 50, 100	✓	✓

Why SGD Pharma

With over a century of expertise, SGD Pharma is a leading global supplier of pharmaceutical glass packaging, producing over 8 million vials and bottles daily across ISO 15378 certified sites in Europe and Asia. Customers benefit from high-quality Type I tubular glass solutions, continuous innovation, premium service and comprehensive regulatory support worldwide.

SGD Pharma,
your partner for molded glass packaging.
