

A large, thin orange circle is positioned behind the word ENSIEMO, with the word passing through its center.

ENSIEMO

**YOUR PARTNER FOR A SAFE,
QUALITATIVE & COMPLIANT PACKAGING SOLUTION**

ENSIEMO

Precision in every drop

Ensiemo is a complete, high-quality dropper packaging solution combining glass bottles with precise and reliable dosing systems.

Designed to ensure product protection, safety and convenience, it offers a wide range of sizes, closures and customization options to meet different product and brand needs.

Trust in pharma quality

Our entire glass dropper bottle solution is produced in a pharmaceutical environment that complies with Good Manufacturing Practice (GMP) specification (ISO 15378), giving you peace of mind that your product is 100% compliant with necessary regulations.

Pharma-grade glass

We offer a complete regulatory package that includes:

- **Compliance with the U.S. and European Pharmacopeias**
- **Compliance with heavy metals and food contact regulations**

Each product is subject to rigorous risk analysis. Adequate protocols are designed to ensure integrity, pipette length and shelf life.

Our offering

SGD Pharma offers a high-quality range of clear and amber bottles and dropper assemblies which feature pharmaceutical grade glass with precise and accurate dropper dosage resulting in low product waste.

Features available:

- **Child resistant systems**
certified ISO 8317 & US CFR 16 1700.20
- **Senior friendly**
- **Product integrity**
with Tamper Evidence (TE)

Branding and customization options

SGD Pharma offers a range of customizable plastic coating and decoration options for its high quality dropper bottle range that can further enhance the visual and tactile desirability of your product.

Plastic coatings also provide additional product protection against light, shatter resistance and physical property benefits. Plastic coatings can be completed with screen printing or serigraphy.

Complete packaging solution & services

- **Better lead times**
- **Consistency & reliability**
- **Mastered supply chain**
- **Increased flexibility**
- **Ready-to-fill product**
- **Cost saving**
- **Minimize environmental impact**
