

Corporate Social Responsibility Policy

Commitment

SGD Pharma is committed to improving and protecting patient health by providing high-quality, reliable and innovative primary glass packaging to our pharmaceutical customers while remaining an environmentally sustainable and socially responsible company.

SGD Pharma's CSR policy is an integral part of the Group's corporate policy and business strategy.

Accountabilities

All employees must be fully aware of our CSR strategy and participate in our CSR action plan.

All managers are involved in the Group's CSR performance and CSR is a part of their individual yearly objectives.

Executive committee members are sponsors of the CSR actions plan relating to their scope of responsibilities and they participate actively in routine progress reviews.

The Group's CSR & HSE Director is responsible for updating this policy at least every three years. The policy covers all SGD Pharma activities (with the exception of new activities or mergers and acquisitions during the first two years)''
